

LINN

KEY FEATURES INCLUDE

- 2K driver array technology for clean and pure high-frequency reproduction and even dispersion for flexible positioning
- Sealed acoustic enclosure for consistently high performance
- Easy-to-install design allows loudspeakers to be quickly front-fitted
- Rotatable 2K driver array for portrait or landscape orientation allows use as a LCR
- High quality audio connectors accept a range of standard loudspeaker connections
- Can be made Aktiv quickly and easily for even higher performance
- Solid and cavity wall backboxes and rough-in brackets available
- Paintable grille and enclosure

Custom 2K 106C represents an effortless solution for discreet high performance audio from powerful loudspeakers that blend seamlessly into walls and ceilings.

Custom 2K 106C features 2K driver array technology derived from Linn's reference loudspeakers. This technology houses two high-frequency drive-units – a tweeter and super-tweeter - in a dedicated cast alloy chassis, ensuring wonderfully clean and pure high frequency. Improved dispersion characteristics allow greater flexibility when positioning the loudspeakers and additional bass is provided by ABR (Acoustic Bass Radiator).

The Custom 2K series of loudspeakers incorporates an optimised acoustic enclosure to ensure a consistently high performance regardless of the wall or ceiling type. Installation is quick and easy thanks to a new and improved installation mechanism, reducing time spent on-site and minimising disruption around the home.

The Linn Custom 2K series also includes compact 104C loudspeakers, available in round or square options, which allows the perfect combination of loudspeakers to be deployed in the available wall or ceiling spaces.

The Linn Custom 2K series has been designed to fit discreetly into any home, sitting flush with walls or ceilings to ensure an almost invisible installation. The loudspeakers are available in white but the grilles and surround can be painted to match any decor.

Custom 2K is part of Linn's Sekrit range of DS players and loudspeakers, designed and engineered to provide the highest quality of discreet multiroom audio entertainment around the home.

CUSTOM 2K 106C

TECHNICAL SPECIFICATIONS

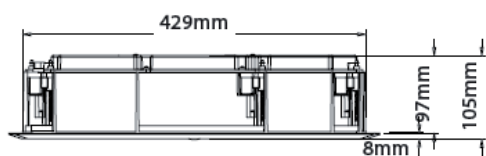

In-wall / in-ceiling loudspeaker for custom installation

Introduced	January 2007
Type	3-way loudspeaker with passive radiator in an infinite baffle with a sealed acoustic enclosure
Frequency response	60 Hz - 20 kHz \pm 3 dB (passive and Aktiv)
Input impedance	4 Ω
Sensitivity	88 dB / 1 W / 1 m
Wiring options	Single wire, Aktiv ¹
Drive units	16 mm soft dome tweeter 30 mm soft dome mid 130 mm screened bass unit 130 mm ABR
Aktiv cards (optional)	CHAKT38 Chakra Aktiv module for Custom 2K 106 Bass (mono) CHAKT39 Chakra Aktiv module for Custom 2K 106 Mid (mono) CHAKT40 Chakra Aktiv module for Custom 2K 106 Treble (mono)
Product dimensions ²	227 mm (H) x 464 mm (W) 8.9 inches (H) x 42.9 inches (W)
Cut-out dimensions ²	192 mm (H) x 429 mm (W) 7.6 inches (H) x 16.9 inches (W)
Mounting depth	97 mm 3.8 inches
Weight	4.5 kg 9.9 lbs
Fire rating	UL94V0

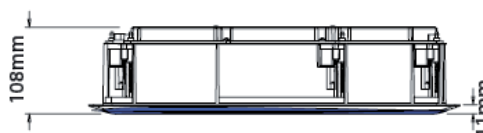

¹ Aktiv cards and conversion kit available separately

² For mounting the product in landscape orientation
