

RedEye, the **personal** remote.

The RedEye system allows the iPhone and iPod touch to control nearly any TV, stereo, cable box, DVD player, and many other devices that receive standard infrared signals.

Personal.

- Each iPhone or iPod touch acts as a controller
- More than one controller can simultaneously interact with existing home entertainment gear

Simple.

- One touch launches any activity—watch TV, listen to music, play a video
- Custom screen layouts for each activity means no hunting for the right button

Smart.

- Multi-touch gestures for common functions
- Free software upgrades delivered via iTunes
- Control different rooms from anywhere in the house

Wi-Fi to Infrared

Communication from iPhone or iPod touch to RedEye device via Wi-Fi, and RedEye device to entertainment gear via infrared

A hardware device and a free App available on iTunes turn the iPhone and iPod touch into a remote control

Technical Specifications

Includes

- “RedEye” Wi-Fi to infrared bridge
- 100-240V, 50-60Hz AC power adapter
- Universal Dock Adapters for iPod touch, iPhone, and iPhone 3G/3GS
