## A frame for everyone

To complement our MirrorMedia screens we have a choice of frames that will look fantastic in any interior. Whether you prefer a decorated frame, relief section frame or a plain frame, they're all individually made to order. Once you have chosen your frame, please refer to our price list to see what cost, if any, will be added to the price of your Mirror television.

A

All frames with code A are included in the price of the mirror television unless the frame requires to be built back (see below).

B

C

D

For frame codes B, C and D please refer to the price list.

**LS** – As our larger screens require a slightly different profile, please check that your frame is compatible.

**WM** – If you are wall-mounting your Mirror television rather than recessing into the wall, you may need a built-back frame. This symbol indicates frame style is suitable for wall-mounted unit built-back.

### Bespoke frame service

We also offer a bespoke frame service; if you've got your own ideas of what you would like, please give us a call to arrange a design consultation.

### Sample service

As it is always difficult to appreciate the true colour and texture from a brochure, we also provide a sample service. Please give us a call if you would like us to send any samples of frames before you make your final decision - we do recommend that you request samples.
