MAKING TECHNOLOGY SEEM LESS

In a world driven by technology, it's sometimes hard to imagine life without it. Whilst technology can be a necessity, it doesn't need to be so intruding. PictureFrame.TV have developed a range of 'Off-the-shelf' and Bespoke Smart TV solutions to reduce the visual impact that modern technology brings.

Our televisions are packed with the latest technologies, allowing seamless integration in to your digital network. However, when switched off, they can easily be mistaken as part of the furniture. Disguised as a beautiful and stylish mirror, the television has now become a functional masterpiece.

Hand crafted in the UK, using the best available LED panels and reflective transparent glass, our stunning televisions are feature packed with all the latest Internet Applications and Picture enhancing software.

With a full range of sizes and frame designs, the possibilities are as endless as your imagination. Whether it's a Grand Ornate or Lizard look frame, the choice is yours.

Standard Range

Here is a small selection of available frame styles. Please visit our website for our full range.

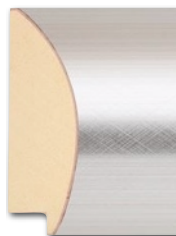

Stepped White

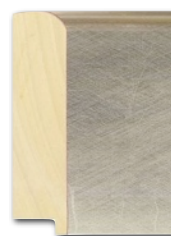

Curved Gloss White

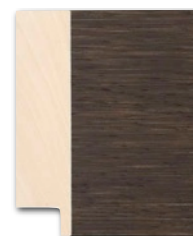

Flat Brushed Alu

Curved Brushed Alu

Premium Range

For those that demand that extra individuality, we have a comprehensive range of designs to suit all tastes. On the right, you can see a small selection of available styles.

Bespoke Design

In the event that our range doesn't cater for your needs, we offer a full bespoke service where we will tailor make your TV for you. Please contact us for more information on this service.

Stay connected with Smart TV*

Enjoy the world at your fingertips with Smart TV. With access to hundreds of apps, you can enjoy such services as On-Demand TV or catch up with the latest soaps on BBC's iPlayer App.

Accessing your Social Media sites such as Facebook and Twitter are just a few clicks away via your remote control.

For those of you that enjoy watching YouTube videos on your computer, you can now access the same content via the comfort of your sofa directly on your Smart TV.

* Requires an internet connection

The ultimate in picture quality

With the latest LED Technology, you will experience breathtaking picture quality with vivid colours and an ultra fast motion rate.

High Definition TV ensures that you will be able make the most of your 1080p source, such as Blu-ray Players and Games Consoles.

Using an LED lit panel allows our products to be amongst the slimmest Mirror TVs available in the market today, as well as benefiting from significantly lower power consumption.

Over 50 channels to play with

With Freeview HD onboard, you can enjoy over 50 TV channels, 4 HD channels and 25 Radio Stations. With an ever expanding choice of entertainment, there is always something to watch or listen to.

All of this entertainment using your existing TV aerial.

Connect anything and everything

With a variety of connection options, you'll be able to connect all of your Audio Visual equipment. With four High Definition Multimedia Interface™ (HDMI®) inputs, you will be able to connect to an array of HD devices at the same time.

- 1 x Component In (Y / Pb / Pr)
- Digital Audio Out (Optical)
- Ethernet (LAN)
- Headphone
- HDMI x 4
- PC Audio In (Mini Jack)
- PC In (D-sub)
- USB x 2
- Scart
- CI Slot

USB connectivity allows you to watch content including films, music and photos directly from any USB storage device.
